H. K. WHITE,
Overseer of Poor.

TOWN AGENT'S REPORT.

The only matter with which the Town Agent has been connected during the past year is the case of L. A. Heidel vs. the Town of Clarendon, as mentioned in the last report.

This case was continued at the March term, and discontinued by the Plaintiff, at the September term, 1910, which leaves the town with no pending litigation.

Respectfully submitted,
L. F. CROFT, Town Agent.

SCHOOL DIRECTORS' REPORT.

The Board of School Directors met at the Town Hall on the 5th day of March, 1910, and organized by electing E. E. Congdon, Chairman, and J. H. Davis, Clerk, for the ensuing year.

Decided to have 32 weeks of school, 11 weeks each in spring and fall terms and 10 weeks in winter.

J. W. Plumley was appointed Truant Officer for the ensuing year. The Joint Committee of the Wallingford Union of Schools decided to retain Carroll H. Drown as Superintendent of schools for the following year at a salary of \$1650.00, the same as in the last year. The State will pay \$1225.00 of said salary at the close of the year, leaving \$425.00 as the cost to the five towns forming the Union. Clarendon's share to pay is a little more than one-fifth. Heretofore the end of the school year, in town affairs has been March 31st, but in accordance with a law, passed by the recent Legislature, the school year hereafter will begin July 1st of each year and end on June 30th following.

As the present school year is continued until July 1st, we have an additional or fourth term in this year.

School Directors elected at March Meetings for the regular three year term will not enter upon their duties until July 1st following.

We would recommend that a tax of 40 cents on the dollar be raised for the support of schools the coming year.

The following orders have been drawn to pay balance of expenses for the school year ending March 31st, 1910:

1910.	No.	
Feb. 18 92	Carrie E. Colvin, teaching 10 weeks	\$85 00
19 93	Ella Q. Bunker, teaching 10 weeks	85 00
94	E. E. Congdon, cash paid out	6 75

	23 95	Mary C. Tierman, teaching balance winter term	53 00
		96 Cecil Ingalls, kindlings and janitor	4 00
		97 Hubert Keech, sawing wood	1 50
	24 98	Nellie R. Long, teaching 2 weeks	17 00
Mar.	3 99	Carroll H. Drown, cash paid out	4 73

J. H. DAVIS,
E. E. CONGDON, } School Directors.
FRANK TEER, }

To the Board of School Directors and Citizens of the Town of Clarendon:—

In this third annual report of schools since the forming of this Union District, it will not be necessary to repeat what has been given in the previous report on the plans and aims of our work.

Much has been accomplished along the lines in which we have been working. The school work is well systematized, and quite well graded. Though we never attain all we hope, the thinking and working power of the children has grown as a result of the training.

There is always an opportunity for criticism of the schools, but we owe much to what they have done, for they have always been the makers of the progress of the nation.

Because of the great change which has come about in our social, industrial and home life, the demands upon the schools are different and far greater than in the past. With earnest efforts, in many ways, we are gradually meeting these demands.

In some lines, the schools still fail to meet the present requirements upon them.

Better instruction should be given in Hygiene—care of the health—by providing the best sanitary buildings and grounds, and better instruction in the schools; and a larger co-operation of the Boards of Health and parents in doing all possible in gaining and retaining for our children that which is most essential of all things—good health.

One chief fault of our past educational training is that it has been (beyond the simple rudiments) largely for the few, and the large share of the masses have found but little to interest them and to meet their individual needs.

The time has come when the schools should and can do much to create an interest and give training in the various industrial lines—mechanical, agricultural, domestic and economic.

This work can be done without, in any way, lessening the training which is now being given in the common branches of study, but in addition to that; and it will far better appeal to the tastes and supply the needs of every school child, and thus make him better and more useful.

In schools like ours much can be done in these lines, especially in arousing an interest in agriculture and home keeping. This can be done at a very small cost which will in time bring great returns to the town.

The same number of schools as usual have been maintained in town the past year. There have been only a few changes in teachers, and most excellent work has been done in the schools. A good salary paid a successful teacher is money well invested. The improvement which is gradually being made in the schools is encouraging.

Only a few books have been bought the past year. A little more should be spent the coming year, for new geographies are much needed. The old ones are very badly worn and long out of date. New physiologies should be supplied soon.

The Chippenhook School house has received numerous much needed repairs, and is now in a very good condition. We are glad to report that the children have kept it well. A new hard wood floor has been laid, and the doors, windows, etc., have been repaired where needed. New tops were put on the desks, and the seats have been re-arranged, and are now neat and comfortable.

The Springs school house has received a new door, a new stove, and some minor repairs.

The knobs, locks and door casings in the Spafford school building are off or loose, and these with a tray for the black-board are very much needed at once.

If school is to be continued in the East Street building certainly it should have some new seats. New seats and a larger stove are also needed in the East Clarendon building.

A new floor will soon be needed in the Springs building. The Spafford school ought to have a new teacher's desk next term.

The jacketed stoves now in use have proven quite satisfactory. All of the buildings ought to be equipped with the same method of heating and ventilating. An unventilated school room gives large dangers for the contagion of diseases, and no brain can do good work when the lungs are taking foul air.

One thing to which we wish especially to bring the attention of the school Directors is the need of having the school rooms and other buildings cleaned before the spring term. Germs have been collecting in every nook and corner during the fall and winter terms, and for the sake of the health of the children a cleaning is very necessary. If we cannot have anything else, let us have the school buildings cleaned.

We cannot do too much for the preservation of our children, and attempted economy in this line is unwise.

Very successful and pleasing graduating exercises were held at the close of the schools in June. It is encouraging that there is growing desire on the part of the children to stick to their school until they finish the elementary course and graduate. There was a large exhibit of good school work in the Clarendon school room at the time of graduation, which gave the parents and friends an opportunity to see some of the work of the schools.

The usual number of teachers' meetings have been held the past year. The programs have been largely made up of papers and discussions by the teachers, which have proven very instructive and helpful. The teachers are continually trying to do better work. We are very grateful to the school Directors for their presence and help at these meetings.

The Superintendent recommends that provision be made for extending the school year to thirty-three or thirty-four weeks. It is asking rather too much of our children to do the

same work in thirty-three weeks which the children in other towns about us do in thirty-four to thirty-eight weeks.

The Superintendent had hoped to give some comparative tables of attendance, expenses, etc., but at this writing it is impossible for the State biennial report of schools is not available, and the schools have not closed, so the reports from the registers cannot be given.

The act passed by the recent Legislature making the school year close hereafter June 30, will bring it much more convenient and make it possible for the Superintendent's report to contain comparative tables showing the growth of the work.

All reports of the mid-year examinations have not come in yet. Though the results were disappointing to some of us, so far as the returns have been received, the average is higher than that of last year.

There are still some cases of truancy and non-attendance, yet, on the whole, the attendance has been better the last year than in the previous years.

If the "acts" of the Legislature were in print at present, we would have the sections pertaining to school attendance in this report, so that all parents could know the laws governing the attendance of their school children. These laws remain about the same as those printed in the past reports.

Again we wish to call the attention of the parents to section 1027 which says that no child can begin school for the first time except in the fall term unless by written permission of the Superintendent of schools.

It may appear like a "stock" part of the report, but it does seem fitting that the teachers receive commendation for their faithful, earnest efforts, and the children for their interest and enthusiasm in their work.

We are grateful to the School Directors and townspeople for their support and loyalty to the schools. We wish that the parents and friends might visit the schools and become acquainted with the work they are doing.

The Superintendent has tried to be conservative in his recommendations, and does not advise the expending of any money unless it is very essential. It is hoped that the Board of Directors will see it necessary to give these suggestions careful consideration, and take action for the improvements needed.

Respectfully submitted,

CARROLL H. DROWN,

Superintendent of Schools.

Notice

The inhabitants who are legal voters of the Town of Clarendon, are hereby notified and warned to meet at the Town Hall, in said town, on the first Tuesday in March, (March 7th) A. D. 1911, at 10 o'clock A. M., to act on the following propositions. viz:—

1. To choose a Moderator to preside at said meeting.
2. To see if the town will vote to license the sale of intoxicating liquors.
3. To choose all necessary Town Officers.
4. To see if the Town will vote to raise a sum of money in addition to the amount now required by law, to take advantage of Sec. 8 of Act 111 of 1906, and if so, how much.
5. To see if the Town will vote to instruct the Selectmen to appoint one or two Road Commissioners, instead of electing them by ballot.
6. To see if the Town will vote to have medical inspection in schools.
7. To see if the Town will vote to raise a tax on the grand list for all necessary purposes for the ensuing year.
8. To transact any other necessary business.

L. N. POTTER, A. N. HOLDEN, T. C. PIERCE,	}	Selectmen.
